7 Updates

7.1 Company

15 **René Tielen** gives an update that everything is going well with Sioux and that there are a lot of subscriptions for the lunch lecture. Sioux already paid the invoice and **René Tielen** is looking forward to the next week. **Jelte de Kock** asks what is the deal with the Escape Bus of Sioux on the side, to which **Maiko Cheng** answers that they will just promote it at the lunch lecture. They are only focused on our students, so only the space reservation and power outlet will be handled by us. **Celine de Jong** mentioned that suggested that
20 next time we could try to prioritize math students for these type of lectures. We could look into whether this is feasible.

Maiko Cheng asks **Ferit Ismailov** what is his update on Ordina. **Ferit Ismailov** answers that he is not sure since he gets very vague emails from them on this topic. They will pick up this after the meeting.

25 7.2 Working groups

Company dinner: the group had a meeting this morning. They discussed the restaurant and still decided to go to Spijker. The menu can be modified by our wishes and can look as "fancy" as we would like. They will contact Spijker to start making agreements. The promotion for the students will follow after the holidays. There are 3 companies con-
30 tracted, and 2 more on the good way to.

Symposium: they made a budget already, and starting to place the permit request. They will have a meeting with the department next week to agree on their involvement.

35 **Career Day:** They will have a meeting next week. For now, there are 3 companies interested. **Maiko Cheng** has to check the amount of students that he can host as of now, since the program is mandatory for the students. **René Tielen** suggest to start working on reserving the rooms on campus.

40 7.3 EB update

Maiko Cheng has been in contact with many companies and is moving confidently with contacting new things. He is working currently on corporation with Soapbox.

8 Past Events

8.1 C4 borrel - Netlight

45 Nice borrel and engaged company. **Maiko Cheng** mentioned that there were interested students and that the company also enjoyed the activity.

9 Upcoming Events

9.1 Sioux Lunch lecture

For the event, we will need to split 75 pizzas by hand. Everyone that can join, should be
50 in Luna at 12:15. More schedule structure will follow afterwards.

10 Discussion points

10.1 ASML

They have their lunch lecture in February. The room **Maiko Cheng** wanted to have (big Atlas lecture room) is reserved for before and after the break. Since the room is used for
55 big courses, we decided that it is not feasible nor worth our efforts.

Ferit Ismailov asked if we knew why the lectures got so popular. **Maiko Cheng** and **Lora Šimić** have a plan to test with feedback forms and ask people why.

10.2 Bonding session

Since some activities were going on, we could not plan a meeting. **Lora Šimić** will pick a
60 date.

11 A.O.B.

No business to discuss.

12 Final Inquiry

No final inquiry.

65 13 Closure

Maiko Cheng closes the N+233rd meeting at 13:21.
