- Partially done. He is still not in the mailing list.

35 **7 Mail**

Someone canceled for business case. We are very sad.

8 Updates

8.1 Company

40 Ferit is invoicing his company who is claiming that they paid the invoice, Celine and Maiko will schedule the meeting with her company.

8.2 Working groups

45 Comapny diner is going okay, not a lot of work can be done until most of the companies are signed. Career day - Maiko is still working on the companies. We have contact with departent to include professors in the program. Celine is also suggesting to also have clusters at university as a backup option if there are not many option. This Will be discussed. Symposium - had their first meeting. First steps are to get the location and budget solved.

9 Upcoming events

9.1 buiseness case

50 The case is in MF 11/12. We get track attendance and give my future points. Master students will get scope points. Pizzas will come at 6 and we will eat at GEWIS. The case is 3.5 hours. Unfortunately, they ordered 10 hawaii pizzas. We wanted to serve coffee and tea, so Maiko asked for opinion weather this is possible. Yes, at GEWIS and not in the lecture room. Celine and Stijn are there as well so they can help as well.

9.2 ING lunch lecture

55 So turns out, we have 143 people subscribed. We want to prioritize GEWIS people so we can mail external participants that there are people who have priority on the list and they might not get a spot.

10 Discussion points

10.1 Role division

60 Will skip it for the next time.

10.2 Organization

There is an idea of using ticket system for some of the side tasks C4 will be heping with (webprofiles, posters, etc.). We can try to see if this works with CBC/ABC.

65 10.3 Clothing

We currently have blouses, but members don't actually wear them. There is an idea of having some other clothing attributes, people don't like the ties. From sustainability point of view, we would like to get clothing that can be passed on to new members so Maiko and Lora will look into polos.

70 11 New members

We have two aspis. BJ is sick¹ and Martijn is present at the meeting. We will only install Martijn, as BJ is not at the meeting and he did not pick up the facetime call.

12 A.O.B.

Mooi.

75 13 Final Inquiry

Celine explained that logo is actually exploding and that not a lot of people know about it. Apparently, a name that c4 had in the past was "horny". Daan had a funny story how he could not identifying himself to municipality, while Stij has never been asked to do so when going to the bars. People started discussing funny ways you can identify
80 themselves. Lastly Martijn asks Lora how was bamischrijf after the party - it was good.

14 Closure

Maiko Cheng closes the N+229th meeting at 1:26.
