20 **Action point N+241.1** for Sunday on Everyone: Fill in the huge datumprikker and the poll

## 6 Mail

We didn't really receive mail, except for the responses of people that are now on the blacklist or will be on the blacklist.

## 7 Updates

### 25 7.1 EB

It was a short week because of Easter. We are now almost at 6C4 in Parelpracht. **Maiko Cheng** is now focusing on symposium and there will probably be some digital sponsoring.

30 Probably the end will be about 70 thousand. This is less than budgeted, but **Maiko Cheng** has already discussed with the Kasco and this should not cause problems.

### 7.2 Working groups

We will do an evaluation for the career day, this will be after the exams.

35 For the company dinner: it will be the Wednesday after the exams, so we should promote fast. There is a poster and it will be promoted on Instagram. Master students will have priority.

There are no lectures anymore where we can really promote it, but there are exams. If anyone has another idea for promotion, tell **Maiko Cheng** or **Lora Šimić!**

40

For symposium: the work group will have a working moment to send out emails to companies, so the contact with the companies will go via the C4 members.

## 8 Discussion points

### 8.1 Evaluations

45 **Maiko Cheng** will send out the questions that will be asked during the personal evaluations. **Maiko Cheng** mentions that more input for questions is more than welcome in case he misses something.

### 8.2 Q4 planning

50 There is a lunch lecture every week and there are also some Thursday lectures. **Maiko Cheng** asks whether people can keep these days a bit free so they can help out with the lunch lectures. All the lectures and other activities are in the C4 trello. In the first week of May there are quite some C4 activities, two lectures and a borrel, so if people can help out there, that is much appreciated!

55 There is only one lunch lecture option left, but **Maiko Cheng** thinks he will have no trouble filling that.

**Martijn van Dijk** asks whether **Maiko Cheng** has already discussed a date for the Jet-brains company visit. **Maiko Cheng** says he is working on this, and he will also talk about them to the symposium.

60

### 8.3 C4 feut

**Kim van Alphen** is enthusiastic about C4! **Maiko Cheng** and **Kim van Alphen** already talked about the expectations.

**Decision N+241.1: Kim van Alphen** wordt geïnstalleerd als lid van C4.

65 **Action point N+241.2** for Next meeting on **Maiko Cheng**: Arrange everything for **Kim van Alphen** to make sure she has C4 rights

## 9 A.O.B.

## 10 Final Inquiry

**Noa Bliet** asks if we can have another poll for the C4 meetings for next quartile.

70 **Action point N+241.3** for Sunday on Everyone: Fill in the poll for the C4 meetings for next quartile

**Maiko Cheng** asks what are good points about C4 to work in **Robin van Dijke**. **Jelte de Kock** and **Noa Bliet** mention to show him how the meetings usually go, especially with how **Maiko Cheng** does the EB updates. The EB support of 43 should also join C4 this  
75 quartile.

For the individual meetings **Maiko Cheng** will next week send out a poll to plan these.

## 11 Closure

**Maiko Cheng** closes the N+241<sup>st</sup> meeting at 13:23.
